

GLS Sport Utility Vehicle

Mercedes-Benz

The new lightness
of being.

With time, with success and with experience, there are still just as many places to visit. But the journey gets more enjoyable. More effortless. Safer. Everything feels somehow lighter when you travel in the new GLS, the SUV in the S-Class. Peace and serenity? You've never experienced them like this before. Power? More than enough. Limits? None that we're aware of.

Charisma.
Without any effort at all.

It's an art mastered by only a few people. And then there's this Mercedes: the new GLS commands its surroundings just by being there. The new front end with its powerdome exudes poise and assurance, while the distinctive silhouette simply brims with character. The imposing rear end, in its turn, rounds things off in dominating style.

The image shows the interior of a Mercedes-Benz GLS, focusing on the front passenger seat and the door panel. The seats are upholstered in dark leather with white stitching. The door panel features a textured leather finish and a silver door handle. Through the window, a scenic view of a beach, dunes, and mountains is visible under a clear sky.

A place of refuge
for visionaries.

Endless expanses. An awesome sense of calm. Somewhere you're always keen to return to. The interior of the new GLS. A place that offers intuitive enjoyment - highlights include the standard DYNAMIC SELECT Controller, the large media display with its high-quality glass finish and the touchpad that comes with the optional COMAND Online.

A dark blue Mercedes-Benz GLS SUV is shown from the front left side, parked on a rocky shore. The car's front wheel, headlight, and grille are visible. The background features a rocky coastline with waves crashing against the rocks, creating white foam. The sky is bright and slightly hazy, suggesting a sunny day. The overall scene conveys a sense of luxury and adventure in a natural setting.

All the best locations.

Sometimes air can be a real luxury. When we take a deep breath, when we stand in a rough wind – or when we travel in the new GLS. The air inside the car can be ionised, if you so wish, so improving your sense of wellbeing. The AIRMATIC air suspension with the new Adaptive Damping System, ADS PLUS, also offers the occupants a whole new level of comfort. Further features include the 9G-TRONIC 9-speed automatic transmission and numerous driving assistance systems – available for the first time in this class of vehicle. There can be few more comfortable, effortlessly superior and safe ways to travel.

A perfectly coordinated colour concept provides the finishing touch to every inch of space, with a range of new shades and combinations available for the GLS. Sit back and enjoy the ginger beige or espresso brown interior, highlighted with new carbon fibre or piano lacquer trim elements. Countless variants are possible – almost as many as the seats from which to admire them: the new GLS can accommodate up to seven people, each with space to call their own.

Enhance your prospects.

There are still seats to be had in seventh heaven.

You travel in such luxury in the GLS that you really ought to share it. Three rows of seats as standard offer top-level comfort and ample space for up to seven occupants. The seats can be used very flexibly, featuring as they do backrest angle adjustment for the second row and electric folding for the third. Heated seats are available as an option for the rear.

Sophisticated luxury as standard.

The standard specification includes some real highlights: much of the exterior trim features an elegant chrome-effect finish. Upholstery and a dashboard upper section in ARTICO man-made leather give a welcoming feel to the interior, with the colour combination of ginger beige/espresso brown just one example of this. High-gloss brown eucalyptus wood trim enhances the natural warmth of this high-quality ambience.

Highlights of the optional equipment.

With its large glazed areas, the panoramic sliding sunroof ensures a particularly bright and welcoming ambience in the interior. The MAGIC VISION CONTROL adaptive windscreen wiper system provides the driver with an optimum view even while wiping. The cleaning fluid is sprayed immediately in front of the wiper blades and then wiped away. The trailer coupling with ESP® trailer stabilisation can be pivoted into place and back again electrically, using a button in the tailgate or driver's door.

EXCLUSIVE interior.

The select appointments put together for this line are exceptionally stylish and exclusive. The interior concept is available in five colour combinations and offers an impressive package of comfort seats in leather, together with shoulderline trim and the lower section of the dashboard in ARTICO man-made leather. Broad expanses of trim in an optional wood finish are further highlights, both visually and to touch and feel. The Interior Light package and the multicoloured ambient lighting further enhance the exquisite vehicle interior.

AMG Line Exterior and Interior.

The AMG equipment lines serve to intensify the sporty and exclusive character of the new GLS. The AMG Line Exterior comprises AMG bodystyling, including specific AMG front and rear aprons and running boards, along with 53.3 cm (21-inch) AMG light-alloy wheels. The features of the AMG Line Interior include a 3-spoke multifunction sports steering wheel, an instrument cluster with a dial in chequered-flag design, sports pedals, sports seats in nappa leather/leather and AMG floor mats.

Night package.

Building on the AMG Line Exterior, the Night package underscores the sporty, expressive character of the vehicle with striking design elements in black. The louvres in the radiator grille and the simulated underguard at the front and rear are finished in high-gloss black. Further highlights include the AMG 5-twin-spoke light-alloy wheels and exterior mirrors in black, as well as heat-insulating dark-tinted glass starting from the rear doors. The roof rails, the window frames and the shoulderline trim strip are also black.

designo Exclusive package.

The designo Exclusive package cossets the vehicle's occupants with exquisite materials and high-quality detailing. The seats are upholstered in fine designo nappa leather – in porcelain/black or espresso brown, in each case with exclusive diamond-pattern quilting – complemented by a dashboard upper section, shoulderline trim, door centre panels and armrests also in designo nappa leather. The package is rounded off by a colour-coordinated roof liner in DINAMICA microfibre plus heated seats for the driver and front passenger.

Mercedes-AMG GLS 63 4MATIC.

The new Mercedes-AMG GLS 63 4MATIC displays its superiority in every respect: its more powerful engine delivers added AMG Driving Performance. Its dominant exterior, with powerfully distinctive AMG design and AMG light-alloy wheels up to 55.9 cm (22 inches) in size, together with its sporty and luxurious interior, make it visually distinctive from the standard-production models. For added dynamism and yet more luxury and elegance.

The best for your engine:
Mercedes-Benz genuine engine oils.

¹ Details of rated power and rated torque in accordance with Directive (EC) no. 595/2009 in the currently applicable version. ² Electronically limited. ³ The fuel consumption and CO₂ emission figures shown were obtained in accordance with the prescribed measuring process (§2 Nos. 5, 6, 6a Pkw-EnVKV in the currently applicable version). The figures are not based on an individual model and do not constitute part of the product offering but are provided solely for purposes of comparison between the different vehicle models. ⁴ Data applicable with the European Union only. Country-specific variations possible. ⁵ Calculated on the basis of CO₂ emissions as measured, taking the mass of the vehicle into account. ⁶ Details in accordance with the Directive 2007/46/EC in the currently applicable version. ⁷ Details in accordance with the Directive 92/21/EC in the currently applicable version (mass in ready-to-drive condition, fuel tank 90% filled, with driver, 68 kg, and luggage, 7 kg) for vehicles with standard equipment. Optional extras and accessories generally increase this figure, with a corresponding reduction in payload.

⁸ The dimensions shown are median values and apply to vehicles in basic specification and unladen. Further technical data are available online: www.mercedes-benz.com

Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to improve the lives of children and young people who are disadvantaged or suffering from illnesses through social sports projects. Laureus has become a fundamental element of Mercedes-Benz’s social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

Please note: changes may have been made to the product since going to press (15.07.2015). The manufacturer reserves the right to make changes to the design, form, colour or specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may include accessories and optional extras which do not form part of the standard specification. Colours may differ slightly from those shown, owing to the limitations of the printing process. This brochure is distributed internationally. Information given regarding statutory regulations, legal requirements and taxation and the consequences thereof applies to the Federal Republic of Germany only and is correct at the time of going to press. For current and more specific information in relation to the range of models, features, optional extras, colours and/or services available in your country, and their pricing, you should contact your nearest authorised Mercedes-Benz Passenger Car Dealer.

Take-back of end-of-life vehicles. At the end of its long life, you can return your GLS to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers is available to make returning your vehicle as easy as possible for you. You are welcome to return your vehicle to one of these establishments free of charge. In so doing, you will be making a valuable contribution towards closing the recycling loop and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
